## लिबर्टी जनरल इन्शुरन्स ने आपल्या क्लेम टीमला इलेक्ट्रिक व्हेइकल्सचे दावे

पुणे : लिबर्टी जनरल इन्शुरन्स, भारतातील सर्वात वेगाने वाढणाऱ्या जनरल इन्शुरन्स कंपनीने अलीकडेच नॅशनल इन्शुरन्स अॅकडमी या विमा शिक्षण आणि संशोधन क्षेत्रात जागतिक स्तरावर ख्याती असलेल्या संस्थेसोबत लिबर्टीच्या क्लेम टीमसाठी इलेक्ट्रिक व्हेइकल्स वर इंडस्ट्रीचा पहिला आणि नाविन्यपूर्ण प्रमाणपत्र अभ्यासक्रम तयार करण्यासाठी भागीदारी केली आहे.

सध्याच्या बाजारपेठेच्या परिस्थितीत, इलेक्ट्रिक वाहने आपल्यासाठी जागा बनवू पाहत आहेत आणि खासगी वाहनांच्या बाजारपेठेतील मोठा वाटा मिळण्याची प्रयत्न करत आहे. परिणामी, इलेक्ट्रिक वाहनांच्या मागणीत वाढ झाल्यानंतर त्यांच्यासाठी मोटार विमा जरूरी होईल. त्यामुळे विमा खरेदीदारांना अधिक चांगली क्लेम सेवा देण्यासाठी नवीन विभागाचे सखोल ज्ञान असणे अत्यावश्यक आहे.

बाजारातील बदलते ट्रेंड लक्षात घेऊन, लिबर्टी जनरल इन्शुरन्स आपल्या क्लेम टीमला इलेक्ट्रिक वाहन घटकांचे सखोल ज्ञान, अपघात झाल्यास वाहनांवर होणारा परिणाम, नैसर्गिक घटनांमुळे होणारे नुकसान आणि वाहन दुरुस्ती करताना ध्यावयाची खबरदारी यासाठी हे प्रशिक्षण देत आहे. जेणेकरून पारंपारिक IC इंजिन वाहनांच्या तुलनेत EVs ची यांत्रिकरचना/घटकांचे विचारकरून दावे कार्यक्षमतेने व्यवस्थित केले जाऊ शकतात. याकोसमर्थे इलेक्ट्रिकवाहनांचे शरीरशास्त्र - खाजगीकार, व्यावसायिक वाहने, दुचाकी यासारख्या विषयांचा समावेश असेल; भारतातील ईव्हीचे वर्तमान आणि भविष्य, दाव्याच्या दृष्टीकोनातून ईव्ही समजून घेणे. प्रशिक्षणात भाग घेणाऱ्यांना ज्ञान आणि दाव्यांच्या ऑपरेशन्सच्याबाबतीत बाजारपेठेत लक्षणीय फायदा प्रदान करेल. पहिल्या

बंधने नुकतेच प्रशिक्षण सुरु केले आहे, जे भारतातील आघाडीच्या विमा कंपन्यांना प्रशिक्षण देण्याचा समृद्ध अनुभव असलेल्या उच्चपात्र NIA विद्याशाखांद्वारे आयोजित केले जात आहे.

सोबतचे हे अनन्य सहकार्य, बॅटरीपॅक, बॅटरीसेल, पूर/ पाणी, आग, परिणाम नुकसान इत्यादीसारख्या संभाव्य धोक्यांमुळे झालेल्या नुकसानीची दुरुस्ती करणे यासह विविध भाग असेंब्लीशी संबंधित दाव्यांची प्रक्रिया करताना भविष्यातील आव्हाने समजून घेण्यात लिबर्टीच्या दाव्याच्या टीमला मदत करेल, आणि त्याचा ईव्हीशी संबंधित प्रभाव. हे प्रशिक्षण लिबर्टीच्या मजबूत क्लेमटीमला सशक्त बनवण्याचे आणखी एक पाऊल आहे जे ग्राहकांना, नेटवर्क बर्कशॉप, OEM भागीदारा आणि मध्यस्थाना उत्तम हक्क सेवा वितरीत रत आहे. उल्लेखनीय म्हणजे, अलीकडेच सादर करण्यात आलेल्या लिबर्टी ३६५, हा भारतातील ग्राहक केंद्रित उपक्रमापैकी एक आहे, लिबर्टी सुट्ट्यांसह वर्षाच्या ३६५ दिवस आपल्या पॉलिसीधारकांच्या दाव्यांवर काम चालू राहते. श्रीरूपम अस्थाना, लिबर्टीजनरल इन्शुरन्सचे मुख्यकार्यकारी अधिकारी आणि पूर्णवेळ संचालक, याप्रसंगी बोलताना म्हणाले, लिबर्टी जनरल इन्शुरन्समध्ये आमचे लक्ष नेहमीच आमच्या ग्राहकांना कार्यक्षम विमा उपाय प्रदान करण्यावर असते. विमादावाहा 'सत्याचाक्षण' आहे जो विमाकर्त्यांना उत्कृष्ट ग्राहक अनुभव प्रदान करण्याची त्यांची बचनबद्धता प्रदर्शित करण्याची संधी प्रदान करतो. यासारख्या प्रशिक्षणांद्वारे आम्ही हे सुनिश्चित करू इच्छितो की लिबर्टी क्लेमटीमईव्हीच्या प्रगतज्ञानाने सुसज्ज आहे जेणेकरून ईव्हीदावे कार्यक्षमतेने निकाली काढता येतील.

## इलेक्ट्रिकल वाहनांसाठी नावीन्यपूर्ण अभ्यासक्रम

राष्ट्रीय विमा अकादमीसोबत  
लिबर्टी इन्शुरन्सची भागीदारी

मुंबई, ता. २३ : लिबर्टी जनरल इन्शुरन्सने राष्ट्रीय विमा अकादमी या विमा शिक्षण आणि संशोधन क्षेत्रातील संस्थेसोबत भागीदारी करत इलेक्ट्रिक वाहनांसाठी पहिलावहिला नावीन्यपूर्ण विमा प्रमाणपत्र अभ्यासक्रम तयार केला आहे. लिबर्टीच्या दावेपुर्ती विभागाच्या कर्मचाऱ्यांसाठी कंपनीने हे पाऊल उचलले आहे.

लिबर्टी आपल्या दावेपुर्ती विभागाला इलेक्ट्रिक वाहन घटकांचे सखोल ज्ञान, अपघात झाल्यास वाहनांवर होणारा

परिणाम, नैसर्गिक घटनांमुळे होणारे नुकसान आणि वाहन दुरुस्ती करताना घ्यावयाची खबरदारी आदी मुद्द्यांबाबत हे प्रशिक्षण देत आहे.

पारंपारिक आयसी इंजिन वाहनांच्या तुलनेत इव्हीची यांत्रिक रचना/घटकांचा विचार करून त्या वाहनांचे दावे कार्यक्षमतेने हाताळण्यासाठी हा अभ्यासक्रम विमा प्रतिनिधींना मदत करेल. कंपनीच्या पहिल्या बॅचचे प्रशिक्षण सुरू झाले आहे. याबाबत लिबर्टीचे मुख्य कार्यकारी

अधिकारी रुपम अस्थाना म्हणाले की, या प्रशिक्षणांद्वारे आमचा दावेपुर्ती विभाग प्रगत ज्ञानाने परिपूर्ण होत असून त्यामुळे त्यांना इलेक्ट्रिक वाहनांचे दावे कार्यक्षमतेने निकाली काढता येतील. राष्ट्रीय विमा अकादमीचे संचालक जी. श्रीनिवासन, म्हणाले की, या नावीन्यपूर्ण प्रमाणपत्र अभ्यासक्रमामुळे लिबर्टीच्या टीमला इलेक्ट्रिक वाहनांसाठी योग्य विमा देणे आणि दावे वेगाने निकाली काढण्याच्या दृष्टीने कौशल्य प्राप्त होईल.

Remember, Banking Awareness, and Static Awareness Questions are asked from the General Awareness section. This will also help you to ride your preparations for the forthcoming exams.

Also, Don't forget to attend the now @ our Bankersdaily Tests

State /UT News

Jammu and Kashmir declares Jerri Hamlet as the first milk village

Jammu and Kashmir administration has declared Jerri Hamlet in the Reasi district as the first 'milk village' of Jammu and Kashmir and sanctioned 57 more dairy farms under the Integrated Dairy Development Scheme (IDDS) for this hamlet.

This milk village houses 73 individual dairy units with 370 cows, which will give financial security to the local farmers.

Under the IDDS, dairy units of five animals are provided with a 50 per cent subsidy.

This scheme also has a provision for milking machine, bulk milk cooling unit at 50 per cent subsidy (maximum subsidy of ₹5 lakhs), paneer making machine, khoya making, Dahi making, cream separator, ice cream making machine, butter and ghee making machine (maximum subsidy of ₹3.5 lakhs), milk van (maximum subsidy of ₹2 lakhs and milk ATM subsidy of ₹5 lakhs).

Appointments

Chanchal Kumar was appointed as the Managing Director of National Highways & Infrastructure Development Corporation Limited

Senior IAS officer Chanchal Kumar was appointed as the Managing Director of National Highways & Infrastructure Development Corporation Limited (NHIDCL) under the Union Ministry of Road Transport & Highways.

He is currently serving in Bihar as the Principal Secretary with the additional charge of the Principal Secretary of GAD, Principal Secretary of Public Grievances, Grievances and the Mission Director of Bihar Administrative Reform Mission.

Mia Amar Mottley was re-elected as the Prime Minister of Barbados

Mia Amar Mottley was sworn in as Barbados Prime Minister for a second term.

She secured all 30 seats in the House of Assembly, the lower house of Barbados Parliament, giving Barbados' first female leader a second term as Prime Minister.

The next elections in Barbados had been scheduled for mid-2023.

Rama Bijapurkar resigns as the Independent Director of ICICI Bank

Rama Bijapurkar has resigned from the post of the Independent Director of ICICI Bank.

She is engaged with an educational institution where she teaches market and business strategy and is also associated with a not-for-profit organisation, where she researches India's consumer economy.

Awards and Recognitions

Jahnvi Dangeti becomes the first Indian to complete the prestigious NASA programme

A young Andhra Pradesh girl, Jahnvi Dangeti has become the first Indian to complete NASA's International Air and Space Programme (IASP) at the Kennedy Space Center in Alabama, United States.

She is a member of the International Organization of Aspiring Astronauts (IOAA).

Sushmita Sen wins the International Association of Working Women Award

Sushmita Sen won the International Association of Working Women Award for outstanding performance by a female actor in a television series presented by the DC South Asian Film Festival 2021 for Aarya 2.

Aarya was also nominated in the Best Drama Series category at the International Emmys 2021.

Agreements and MoUs signed

AgNext Technologies and NAFED collaborate to organise pulses' quality assessment training for Maharashtra's FPOs

India's leading agri-tech company AgNext Technologies collaborated with the National Agricultural Cooperative Marketing Federation of India Limited (NAFED) to organise a virtual training and awareness programme for Maharashtra's biggest FPOs (Farmer Producer Organisations) on pulses' quality assessment.

This training Programme's goal was to educate FPOs on the various market quality standards for toor dal. The commodity (toor dal) is graded and priced in the market based on this assessment.

Liberty General Insurance partners with National Insurance Academy to manage electric vehicle claims Effectively

Liberty General Insurance has partnered with the National Insurance Academy to design an industry-first and certification course on electric vehicles (EVs) for its claims team.

### Liberty General Insurance Collaborates with NIA to Empower its Claims Team to Manage EV Claims Effectively

📅 January 24, 2022 👤 admin 👁 47 Views 💬 0 Comments 🏷 Collaborates, Empower, EV Claims, Liberty General Insurance, NIA

#### **Jointly Designed an Industry First Certification Course on Electric Vehicles**

Liberty General Insurance, one of the fastest growing General Insurance companies in India recently partnered with the National Insurance Academy (NIA), an institution of global eminence in the field of insurance education, learning and research to design an Industry first and innovative certification course on Electric Vehicles (EVs) for Liberty's Claims Team.

In the present market scenario, electric vehicle segment is starting to find its feet and is expected to capture a considerable market share in the private vehicle segment. Consequently, the surge in demand for the electric vehicles will be followed by motor insurance for the same. It is thus imperative to have an in-depth knowledge of the new segment to offer better claim service to the Insurance buyers.

#### Jointly Designed an Industry First Certification Course on Electric Vehicles

Liberty General Insurance, one of the fastest growing General Insurance companies in India recently partnered with the National Insurance Academy (NIA), an institution of global eminence in the field of insurance education, learning and research to design an Industry first and innovative certification course on Electric Vehicles (EVs) for Liberty's Claims Team.

In the present market scenario, electric vehicle segment is starting to find its feet and is expected to capture a considerable market share in the private vehicle segment. Consequently, the surge in demand for the electric vehicles will be followed by motor insurance for the same. It is thus imperative to have an in-depth knowledge of the new segment to offer better claim service to the Insurance buyers.

Considering the changing market trends, Liberty General Insurance is facilitating this training for its claims team to provide deeper knowledge of electric vehicle components, impact on vehicles in case of an accident, loss due to natural events and precautions to be followed during repair of the vehicle so that Claims can be managed efficiently considering the very different mechanical structure/components of EVs vis-à-vis the traditional IC Engine vehicles. The course will cover topics such as Anatomy of Electric Vehicles – Private Cars, Commercial Vehicles, Two Wheelers; The present & future of EVs in India, Understanding EVs from Claims perspective. The program will provide attendees with considerable edge in the market in terms of knowledge and claims operations. The first batch has just commenced training, which is being conducted by highly qualified NIA faculties with rich experience in training the leading insurance companies in India.

This exclusive collaboration with NIA, will help our claim's team in understanding the future challenges involved while processing claims related to different part assemblies including Battery Packs, Battery cells, repairability of damages due to likely perils such as Flood/Inundation, Fire, Impact damage etc, and its impact related to EVs. This training is yet another step to empower Liberty's robust claims team which continues to deliver superior claim services to its customers, network workshops, OEM partners & intermediaries. Remarkably, with the recent introduction of Liberty 365, a one of its kind customer focused initiative in India, Liberty continues to seamlessly process its policyholders' claims 365 days a year including weekends and public holidays too.

Speaking on the occasion, Mr. Roopam Asthana, CEO & Whole-Time Director, Liberty General Insurance said, "At Liberty General Insurance, our focus has always been on providing efficient insurance solutions to our customers. Insurance claim is the 'moment of truth' that provides insurers the opportunity to demonstrate its commitment to providing superior customer experience. Through trainings such as these we want to ensure that Liberty's Claims Team is well equipped with advanced knowledge of EVs so as to settle EV Claims efficiently."

Speaking on the development, Mr. G Srinivasan, Director, National Insurance Academy said, "Electric vehicles are the future of automobile industry in India in view of its positive environmental impact. It was indeed a pioneering step by Liberty General insurance to build expertise in their team by designing an innovative certification course in collaboration with National Insurance Academy. This would ensure that Liberty General insurance team has the competency to provide a meaningful coverage and efficient claims service for electric vehicles."

Industry experts believe that as consumer become more aware about the advantages of Electric Vehicles, the demand for electric vehicles may see a considerable growth in the coming years. In the last few years, EVs have emerged as the bellwether for the clean energy initiative because of the low or zero emissions and quickly established themselves as a vital part of the OEM (original equipment manufacturer) business strategies. Currently, such vehicles come at a slightly premium price compared to regular fuel-run vehicles. However, electric vehicles offer their own set of advantages including lower operational cost, minimal pollution, and savings on fuel prices.

#### About Liberty General Insurance

Liberty General Insurance Ltd. (LGI) is a joint venture between Liberty Citystate holdings PTE Ltd—a group company of Liberty Mutual Insurance Group, a diversified global insurer with over 900 offices across the world, headquartered in the U.S. —Enam Securities, and Diamond Dealtrade. LGI commenced operations in 2013 with the aim of providing comprehensive retail, commercial and industrial insurance solutions. The company has an employee strength of 1100+ with presence across 100+ locations in 28 states. Its partner network consists of about 5100+ hospitals and more than 4300 auto service centres. The company offers health and personal accident insurance, car and two-wheeler insurance, employee compensation insurance, commercial insurance, fire and engineering insurance, marine insurance and other miscellaneous insurance products in India.

#### About National Insurance Academy

National Insurance Academy (NIA) is a premier organization in India with a vision to be a global institution of excellence in learning and research in insurance, pension and allied areas. Its close association with the Insurance industry provides the 'real life' reference to its training, education, research and consultancy activities and therefore it is devoted to equip the insurance industry with the best of talent. The Academy was established in 1980 jointly by the Ministry of Finance, Government of India, Life Insurance Corporation of India, General Insurance Corporation of India and four Public Sector Insurance Companies and it is now an internationally acclaimed institution imparting insurance and management education to the senior executives of the Insurance Industry in India and other Afro-Asian countries from more than 200 companies. Over 6500 senior level officials attend Management Development Training Programmes at NIA in various functional areas of Life and Non-Life Insurance every year.

## Liberty General Insurance collaborates with NIA

<https://www.anandmarket.in/liberty-general-insurance-collaborates-with-nia/>

New Delhi: Liberty General Insurance has partnered with the National Insurance Academy (NIA) to design the industry's first electric vehicle (EV) certification course for the claims team.

"The electric vehicle segment has begun to enter the market and is expected to gain significant market share in the private vehicle segment. As a result, electric vehicle insurance will follow the surge in demand for electric vehicles. Therefore, it is imperative to have a deep knowledge of the new segment in order to provide better claim services to insurance buyers," says the press release.

In light of changing market trends, Liberty General Insurance provides in-depth knowledge of electric vehicle components, the impact on vehicles in the event of an accident, losses from natural disasters, and precautions to be taken during vehicle repairs. Therefore, we are promoting this training to the claims team. The press release states that complaints can be managed efficiently.

This course covers topics such as the structure of electric vehicles (private vehicles, commercial vehicles, motorcycles). Understand EV from the perspective of present and future of EV in India and complaints.

The first batch started training conducted by NIA faculty.

RoopamAsthana, CEO and Full-Time Director of Liberty General Insurance, said: "Insurance claims are the" moment of truth "that provide an opportunity for insurance companies to demonstrate their commitment to providing a great customer experience. Through such training, we hope that Liberty's claims team will have a good knowledge of EVs and will be able to resolve EV claims efficiently. "

Industry experts believe that demand for such vehicles will grow significantly over the next few years as consumers become more aware of the benefits of EVs. Over the past few years, EVs have emerged as a precursor to clean energy initiatives due to their low or zero emissions and have rapidly become an important part of the business strategy of their brand suppliers. Today, such vehicles are more expensive than regular fuel-operated vehicles, but they have unique advantages such as reduced operating costs, minimized pollution, and saved fuel prices.

The course will cover topics such as Anatomy of Electric Vehicles – Private Cars, Commercial Vehicles, Two Wheelers; The present & future of EVs in India, Understanding EVs from Claims perspective. The program will provide attendees with a considerable edge in the market in terms of knowledge and claims operations. The first batch has just commenced training, which is being conducted by highly qualified NIA faculties with rich experience in training the leading insurance companies in India.

This exclusive collaboration with NIA will help our claim's team in understanding the future challenges involved while processing claims related to different part assemblies including Battery Packs, Battery cells, reparability of damages due to likely perils such as Flood/Inundation, Fire, Impact damage etc, and its impact related to EVs. This training is yet another step to empower Liberty's robust claims team which continues to deliver superior claim services to its customers, network workshops, OEM partners &

intermediaries. Remarkably, with the recent introduction of Liberty 365, a one of its kind customer-focused initiative in India, Liberty continues to seamlessly process its policyholders' claims 365 days a year including weekends and public holidays too.

Speaking on the occasion, Mr. Roopam Asthana, CEO & Whole-Time Director, Liberty General Insurance said, "At Liberty General Insurance, our focus has always been on providing efficient insurance solutions to our customers. An insurance claim is the 'moment of truth' that provides insurers with the opportunity to demonstrate their commitment to providing a superior customer experience. Through training such as these we want to ensure that Liberty's Claims Team is well equipped with advanced knowledge of EVs so as to settle EV Claims efficiently."

Speaking on the development, Mr. G Srinivasan, Director, National Insurance Academy said, "Electric vehicles are the future of automobile industry in India in view of its positive environmental impact. It was indeed a pioneering step by Liberty General insurance to build expertise in their team by designing an innovative certification course in collaboration with National Insurance Academy. This would ensure that Liberty General insurance team has the competency to provide a meaningful coverage and efficient claims service for electric vehicles."

Industry experts believe that as consumers become more aware of the advantages of Electric Vehicles, the demand for electric vehicles may see considerable growth in the coming years. In the last few years, EVs have emerged as the bellwether for the clean energy initiative because of the low or zero emissions and quickly established themselves as a vital part of the OEM (original equipment manufacturer) business strategies. Currently, such vehicles come at a slightly premium price compared to regular fuel-run vehicles. However, electric vehicles offer their own set of advantages including lower operational cost, minimal pollution, and savings on fuel prices.

## Liberty General Insurance is working with NIA

<https://indianewsrepublic.com/liberty-general-insurance-is-working-with-nia/623952/>

New Delhi: Liberty General Insurance has partnered with the National Insurance Academy (NIA) to design the industry's first electric vehicle (EV) certification course for the claims team.

"The electric vehicle segment is beginning to find a foothold and is expected to gain significant market share in the private vehicle segment. As a result, electric vehicle insurance will follow the surge in demand for electric vehicles. Therefore, it is essential to have a deep knowledge of the new segment in order to provide better claim services to insurance buyers," says the press release.

In light of changing market trends, Liberty General Insurance provides in-depth knowledge of electric vehicle components, the impact on vehicles in the event of an accident, losses from natural disasters, and precautions to be taken during vehicle repairs. Therefore, we are promoting this training to the claims team. The press release states that complaints can be managed efficiently.

This course covers topics such as the structure of electric vehicles (private vehicles, commercial vehicles, motorcycles). Understand EV from the perspective of present and future of EV in India and complaints.

The first batch started training conducted by NIA faculty.

Roopam Asthana, CEO and Full-Time Director of Liberty General Insurance, said: "Insurance claims are the moment of truth that provide an opportunity for insurance companies to demonstrate their commitment to providing a great customer experience. Through such training, we hope that Liberty's claims team will have a good knowledge of EVs and will be able to resolve EV claims efficiently."

Industry experts believe that demand for such vehicles will grow significantly over the next few years as consumers become more aware of the benefits of EVs. Over the past few years, EVs have emerged as a precursor to clean energy initiatives due to their low or zero emissions and have rapidly become an important part of the business strategy of their brand suppliers. Today, such vehicles are more expensive than regular fuel-operated vehicles, but they have unique advantages such as reduced operating costs, minimized pollution, and saved fuel prices.

### NIA to train Liberty General Insurance on managing EV claims

by AIP Online Bureau | Jan 20, 2022 | Indian News, Non-Life, Technology | 0 comments

This exclusive collaboration with NIA, will help insurer's claim's team in understanding the future challenges involved while processing claims related to different part assemblies including Battery Packs, Battery cells, reparability of damages due to likely perils such as Flood/Inundation, Fire, Impact damage etc, and its impact related to EVs

This exclusive collaboration with NIA, will help insurer's claim's team in understanding the future challenges involved while processing claims related to different part assemblies including Battery Packs, Battery cells, reparability of damages due to likely perils such as Flood/Inundation, Fire, Impact damage etc, and its impact related to EVs

Mumbai:

Liberty General Insurance has partnered with Pune based National Insurance Academy (NIA), to design an Industry first and innovative certification course on Electric Vehicles (EVs) for Liberty's Claims Team.

In the present market scenario, electric vehicle segment is starting to find its feet and is expected to capture a considerable market share in the private vehicle segment. Consequently, the surge in demand for the electric vehicles will be followed by motor insurance for the same. It is thus imperative to have an in-depth knowledge of the new segment to offer better claim service to the insurance buyers.

Considering the changing market trends, Liberty General Insurance is facilitating this training for its claims team to provide deeper knowledge of electric vehicle components, impact on vehicles in case of an accident, loss due to natural events and precautions to be followed during repair of the vehicle so that claims can be managed efficiently considering the very different mechanical structure/components of EVs vis-à-vis the traditional IC Engine vehicles.

The course will cover topics such as anatomy of EVs – private cars, commercial vehicles, two wheelers; the present & future of EVs in India, understanding EVs from claims perspective.

This exclusive collaboration with NIA, will help insurer's claim's team in understanding the future challenges involved while processing claims related to different part assemblies including Battery Packs, Battery cells, repairability of damages due to likely perils such as Flood/Inundation, Fire, Impact damage etc, and its impact related to EVs.

Speaking on the occasion, Roopam Asthana, CEO & Whole-Time Director, Liberty General Insurance said, "Through trainings such as these we want to ensure that Liberty's claims team is well equipped with advanced knowledge of EVs so as to settle EV Claims efficiently."

G Srinivasan, director, NIA said, "Electric vehicles are the future of automobile industry in India in view of its positive environmental impact."

Industry experts believe that as consumer become more aware about the advantages of Electric Vehicles, the demand for electric vehicles may see a considerable growth in the coming years. In the last few years, EVs have emerged as the bellwether for the clean energy initiative because of the low or zero emissions and quickly established themselves as a vital part of the OEM (original equipment manufacturer) business strategies.

The first batch has just commenced training, which is being conducted by highly qualified NIA faculties with rich experience in training the leading insurance companies in India.

Currently, such vehicles come at a slightly premium price compared to regular fuel-run vehicles. However, electric vehicles offer their own set of advantages including lower operational cost, minimal pollution, and savings on fuel prices.

Business

Jointly designed an industry first certification course on electric vehicles

Mumbai, January 20, 2022: Liberty General Insurance, one of the fastest growing General Insurance companies in India recently partnered with the National Insurance Academy (NIA), an institution of global eminence in the field of insurance education, learning and research to design an Industry first and innovative certification course on Electric Vehicles (EVs) for Liberty's Claims Team.

In the present market scenario, electric vehicle segment is starting to find its feet and is expected to capture a considerable market share in the private vehicle segment. Consequently, the surge in demand for the electric vehicles will be followed by motor insurance for the same. It is thus imperative to have an in-depth knowledge of the new segment to offer better claim service to the Insurance buyers.

Considering the changing market trends, Liberty General Insurance is facilitating this training for its claims team to provide deeper knowledge of electric vehicle components, impact on vehicles in case of an accident, loss due to natural events and precautions to be followed during repair of the vehicle so that Claims can be managed efficiently considering the very different mechanical structure/components of EVs vis-à-vis the traditional IC Engine vehicles. The course will cover topics such as Anatomy of Electric Vehicles – Private Cars, Commercial Vehicles, Two Wheelers; The present & future of EVs in India, Understanding EVs from Claims perspective. The program will provide attendees with considerable edge in the market in terms of knowledge and claims operations. The first batch has just commenced training, which is being conducted by highly qualified NIA faculties with rich experience in training the leading insurance companies in India.

This exclusive collaboration with NIA, will help our claim's team in understanding the future challenges involved while processing claims related to different part assemblies including Battery Packs, Battery cells, repairability of damages due to likely perils such as Flood/Inundation, Fire, Impact damage etc, and its impact related to EVs. This training is yet another step to empower Liberty's robust claims team which continues to deliver superior claim services to its customers, network workshops, OEM partners & intermediaries. Remarkably, with the recent introduction of Liberty 365, a one of its kind customer focused initiative in India, Liberty continues to seamlessly process its policyholders' claims 365 days a year including weekends and public holidays too.

Speaking on the occasion, Mr. Roopam Asthana, CEO & Whole-Time Director, Liberty General Insurance said, "At Liberty General Insurance, our focus has always been on providing efficient insurance solutions to our customers. Insurance claim is the 'moment of truth' that provides insurers the opportunity to demonstrate its commitment to providing superior customer experience. Through trainings such as these we want to ensure that Liberty's Claims Team is well equipped with advanced knowledge of EVs so as to settle EV Claims efficiently."

Speaking on the development, Mr. G Srinivasan, Director, National Insurance Academy said, "Electric vehicles are the future of automobile industry in India in view of its positive environmental impact. It was indeed a pioneering step by Liberty General insurance to build expertise in their team by designing an innovative certification course in collaboration with National Insurance Academy. This would ensure that Liberty General insurance team has the competency to provide a meaningful coverage and efficient claims service for electric vehicles."

Industry experts believe that as consumer become more aware about the advantages of Electric Vehicles, the demand for electric vehicles may see a considerable growth in the coming years. In the last few years, EVs have emerged as the bellwether for the clean energy initiative because of the low or zero emissions and quickly established themselves as a vital part of the OEM (original equipment manufacturer) business strategies. Currently, such vehicles come at a slightly premium price compared to regular fuel-run vehicles. However, electric vehicles offer their own set of advantages including lower operational cost, minimal pollution, and savings on fuel prices.
